## Work Experience

- 2018-2023 **Research Assistant** *Universitat de Barcelona* Spain.  
o Experience in the research process: reference search and management, designing novel solutions, experimental design and execution, publishing and reviewing at conferences and journals, and organizing workshops.  
o Gained knowledge in Deep Learning, particularly in Computer Vision, including CNNs, RNNs, Transformers, SSL, and multi-modality. Neural network coding and training with PyTorch (in particular, Video Transformers), hyperparameter search, result tracking and analysis with WandB, data handling, and processing. Extensive experience setting up code environments using Anaconda and Docker.  
o Collaborated in big interdisciplinary project with psychologists. Created a dataset from content definition, designed the technical setting, and was in charge of data gathering, processing, and storage.
- 2022 **Visiting Scholar** *Aalborg Universitet* Denmark.  
Successfully led survey paper on Video Transformers, published in IEEE's TPAMI. Experience in adapting to new international environments and teams.
- 2018 **Research Assistant** *Care Respite* Barcelona.  
Migrating automatic event detection app from Microsoft's Kinect to Intel's RealSense.
